Annexure A | Title: Quality Policy

"We are committed to achieve business excellence by providing seamless customer experience by fulfilling the needs and expectations of its relevant internal and external interested parties and follow all applicable rules and regulations associated with the organization. The organization also committed to comply the legal requirements applicable to the scope of its activities.

Achieving SMART objectives, the enterprise is committed to provide customer satisfaction at maximum level. To enhance customer satisfaction and continually improve the quality of products, the Quality Management System is deployed which is a trusted instrument of this enterprise.

This Quality Policy is communicated, understood, applied within the organization and also available to all relevant interested parties"
